I have data...now what?

# Build Your Program's Story

---

- Enrollment went through the ceiling?
  - What does this burst of enrollment mean?
    - Do you need more faculty, space, resources, etc.
- What you had record number of graduates?! Show us! How did you do that? What do you recommend from now on?
- Did your program how a loss this year...why's that?
  - Enrollment drop? Demand drop? Less instructors = less sections?
- Oh you need \$\$...why didn't you say so?! What do you need it for?

Think of your story as less of a  
novel...

---

...and more of a show and tell...
